

A program of Pathways to Housing PA

## Sharing Recorded Trainings with Your Staff...

Please feel free to share the recorded trainings with your staff!

### Suggested Ideas for Sharing Trainings with Staff:

- Watch the trainings as a team via Zoom or in-person, as permitted
- Share printed copies of slide deck and any other supplementary training materials
- Stop training video periodically and check-in with staff to answer questions and/or have brief discussion about the topics
- Hold a question-and-answer debriefing session after viewing the training
- Ask how staff members think they will be able to incorporate the principles of Housing First, Harm Reduction, etc. in their current work

If your staff members have questions that you need further clarification to answer, please compile a list and send to Andrew Spiers, Director of Training & Technical Assistance, at
